Document reference number and title: (Recommendation from the MEP to SBM020) A6.4 MEP012-A05: Draft mechanism methodology: N2O abatement from nitric acid production (version 01.0)				
Item	Section no. (as indicated in the document)	Paragraph/Table/Figure no. (as indicated in the document)	Comment (including justification for change)	Proposed change (including proposed text)
1	DATA AND PARAMETERS NOT MONITORED	Table no. 3	GWP 273 Source: The Intergovernmental Panel on Climate Change (IPCC) lists N ₂ O's GWP as 273 in its Sixth Assessment Report	Value(s) applied: 273
2	DATA AND PARAMETERS MONITORED	65.	To include "Length Operating Period as measured in hours" as monitored Data	The inclusion of "Length Operating Period (as measured in hours)" as a monitored parameter is recommended in order to improve the transparency and accuracy of activity data. The number of operating hours can serve as an important cross-check parameter.
