

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Biogas Project by Atmos AJS Fuels
Names of the activity participants:	Core CarbonX Solutions Private Limited, Atmos AJS Fuels
Host party:	India
Precise geographical location (Full address or GPS coordinates):	Dhantej Village, Savli Taluka, Vadodara District, Gujarat, India
A brief description of the technologies or measures to be deployed:	The project activity involves the capture of biogas from the anaerobic decay of biomass and biomanure. The biogas captured via the decay is used for industrial and retail purposes. The biogas replaces the burning of fossil fuels and thus reduces the emissions otherwise caused by the use of fossil fuels.
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	16 Aug 2021
The type of the crediting period:	Renewable
Start date of the crediting period:	15 Feb 2022
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	20,000 tCO ₂ eq per year
