

Article 6.4 Mechanism Prior consideration notification form for projects (V01.0)

(VU1.U)	
Project Title:	300 MW solar power project in Dholera, Gujarat
Names of the activity participants:	Tata Power Renewable Energy Limited
Host party:	India
Precise geographical location (Full address or GPS coordinates):	Village Mahadevpura & Bhangadh, TalukaDholera, District Ahmedabad, State Gujarat, India
A brief description of the technologies or measures to be deployed:	The project activity involves the installation of Sola PV based electricity generation project by Tata Power Renewable Energy Limited. The total installed capacity of the project is 300 MW Solar PV plant located in Gujarat state in India
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	27 Mar 2022
The type of the crediting period:	Fixed
Start date of the crediting period:	27 Mar 2022
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	656,106 tCO2eq per year
