

Article 6.4 Mechanism Prior consideration notification form for projects (V01.0)

(001.0)	
Project Title:	100 MW solar power project in Partur, Maharashtra
Names of the activity participants:	Tata Power Renewable Energy Limited
Host party:	India
Precise geographical location (Full address or GPS coordinates):	Village Amba Taluka Partur, District Jalna, Maharashtra, India
A brief description of the technologies or measures to be deployed:	The project activity involves the installation of Solar PV based electricity generation project by Tata Power Renewable Energy Limited. The total installed AC capacity of the project is 100 MW Solar PV plant located in Village Amba Taluka Partur, District Jalna, Maharashtra, India.
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	25 May 2022
The type of the crediting period:	Fixed
Start date of the crediting period:	25 May 2022
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	191,418 tCO2eq per year
