

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	225 MW Solar Energy Project in Noorsar
Names of the activity participants:	Tata Power Renewable Energy Limited
Host party:	India
Precise geographical location (Full address or GPS coordinates):	Noorsar village, Bikaner Taluka Bikaner District, Rajasthan, India
A brief description of the technologies or measures to be deployed:	The project activity of 225 MW Solar PV system at Bikaner, Rajasthan uses 312 MWp array of STC -Solar Photovoltaic (mono perc) Technology. The Grid Connected Solar PV power generation scheme will mainly consist of Solar PV array, Power Conditioning Units which converts DC power to AC power, transformers and associated switch gears with metering and protection
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	26 Jul 2022
The type of the crediting period:	Fixed
Start date of the crediting period:	26 Jul 2022
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	504,150 tCO ₂ eq per year
