

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Zarafshan Wind Farm
Names of the activity participants:	Shamol Zarafshan Energy FE LLC
Host party:	Uzbekistan
Precise geographical location (Full address or GPS coordinates):	The wind power plant is located in the Tamdy District of the Navoi Region in Uzbekistan. It lies within the central part of the Kyzylkum Desert and occupies an area approximately 9,600 hectares in size, of this construction activities will take place on approximately 125 hectares in total. Coordinates 41° 34' 11.9568''N 64° 21' 37.926'' E to 41°33' 44.0496'' N 64°28' 12.112'' E
A brief description of the technologies or measures to be deployed:	The project involves the construction of a 521.7 MW grid-connected wind power plant with 111 wind turbines and generators to convert kinetic power of the wind to electrical energy, which will be supplied to the national grid at the connection point through the transmission line. At the connection point, the electricity meter systems will be installed.
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	08 Nov 2022
The type of the crediting period:	Renewable
Start date of the crediting period:	27 Dec 2023
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	992,600 tCO ₂ eq per year
