

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Fundaozinho Small Hydro Power Plant Project Activity
Names of the activity participants:	Rio Nascente Energia S.A. ; Ecopart Assessoria em Negócios Empresariais Ltda.
Host party:	Brazil
Precise geographical location (Full address or GPS coordinates):	The project activity is located in the Paraíso das Águas municipality, Mato Grosso do Sul State, Brazil, under the following geographic coordinates: 18°59'17" S and 53°09'27" W
A brief description of the technologies or measures to be deployed:	The small hydropower plant considered in this project activity will have approximately 22 MW of installed capacity and a reservoir area of 0.061 km ² . The technology that is expected to be employed at the plant is water turbine(s) and generator(s). The electricity generated by this plant will displace energy generated by fossil fuel fired plants connected to Brazilian interconnected grid, thus reducing GHG emissions.
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	01 Oct 2022
The type of the crediting period:	Fixed
Start date of the crediting period:	31 Jul 2025
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	42,048 tCO ₂ eq per year
