

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Oslomej Solar Power Plant
Names of the activity participants:	Gaia Climate Finansal Danışmanlık Hizmetleri ve Ticaret A.Ş., Fortis Energetika Fotonaponski Centrali Dooel
Host party:	North Macedonia
Precise geographical location (Full address or GPS coordinates):	41°34'37.1"N 20°59'50.9"E
A brief description of the technologies or measures to be deployed:	The project employs photovoltaic solar technology with an 80 MWDC capacity, using advanced solar panels and inverters, integrated into the national grid for clean electricity generation, contributing significantly to climate change mitigation by displacing electricity generated from fossil fuel-fired power plants.
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	27 Dec 2022
The type of the crediting period:	Fixed
Start date of the crediting period:	01 Apr 2024
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	95,953 tCO ₂ eq per year
