

**Article 6.4 Mechanism**  
**Prior consideration notification form for projects**  
**(V01.0)**

|   |  |
|---|--|
| <b>Project Title:</b>   | Global Cookstove Program (EKI Phase 12)  |
| <b>Names of the activity participants:</b>  | EKI Energy Services Limited  |
| <b>Host party:</b>  | India  |
| <b>Precise geographical location (Full address or GPS coordinates):</b>   | 8°4' to 37°6' N 68°7' to 97°25' E  |
| <b>A brief description of the technologies or measures to be deployed:</b>  | The main purpose of project is distribution of fuel efficient improved cook stoves (ICS) in India initially and will expand the same for other Asian and African countries. The ICS disseminated through this project will replace the old low efficient baseline cook stoves. Through this project, the distribution and installation of ICS will be undertaken for households and communities/non household. It is intended that under this project high thermal efficient cook stoves will be distributed. The ICS will burn wood more efficiently thereby improving thermal transfer to pots, hence saving fuel and greenhouse gases. Not only will this halt the rapidly progressing deforestation but will also reduce health hazards from indoor smoke pollution and women and children will have to spend less time collecting firewood. |
| <b>The Article 6.4 mechanism methodology to be applied (if already known):</b>  | Not known  |
| <b>The actual or planned start date of the activity:</b>  | 01 Dec 2021  |
| <b>The type of the crediting period:</b>  | Renewable  |
| <b>Start date of the crediting period:</b>  | 01 Dec 2021  |
| <b>The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:</b> | 50,552 tCO <sub>2</sub> eq per year  |
