

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	14.4 MW Bio-Mass based Co-Gen Power Plant project by Oasis group in Haryana.
Names of the activity participants:	EKI Energy Service limited.
Host party:	India
Precise geographical location (Full address or GPS coordinates):	Latitude: 30°25'44.27" N Longitude: 76°55'11.57" E
A brief description of the technologies or measures to be deployed:	Oasis Ethanol Pvt. Ltd. is proposing to set up 320 KLPD Grain Based Ethanol plant of along with 14.4 MW Cogeneration Power Plant at Village Jatwar, Teshil Ambala, Haryana. The project is being set up by M/s Oasis Ethanol Industries Pvt. Ltd. which was incorporated in 2020 at Village Jatwar, Distt Ambala, Haryana with the capacity of 320 KLD Ethanol. the fuel Bio Mass is utilized for generating the steam and power for its captive requirement & power sale. It is intended to use Rice Husk as main Fuel in the boiler, which is available in abundance in the nearby Rice Mills. In addition, Rice Straw, and Cotton Stalk in small quantity as available/feasible are also envisaged as alternative fuel, especially when Rice Husk is not available
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	06 Dec 2022
The type of the crediting period:	Renewable
Start date of the crediting period:	06 Dec 2022
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	59,233 tCO ₂ eq per year
