

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Global Cookstove Program (EKI Phase 10)
Names of the activity participants:	EKI Energy Services Limited
Host party:	India
Precise geographical location (Full address or GPS coordinates):	Latitude - 8°4' to 37°6' N Longitude - 68°7' to 97°25' E
A brief description of the technologies or measures to be deployed:	The project involves distribution of fuel-efficient improved cook stoves (ICS) to replace the baseline traditional cook stoves in households. The ICS to be deployed under this project is energy efficient which substantially reduces fuel consumption and emissions for conducting cooking and water heating tasks in homes. The ICS improve the efficiency of combustion and thermal transfer to the pot compared with a traditional pot support or three-stone fire by incorporating energy efficient technology which provides a conducive environment for clean and efficient combustion of wood. It substantially reduces wood fuel consumption compared with a less efficient or three-stone fire or traditional pot support.
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	01 Dec 2021
The type of the crediting period:	Renewable
Start date of the crediting period:	01 Dec 2021
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	353,863 tCO ₂ eq per year
