

**Article 6.4 Mechanism**  
**Prior consideration notification form for projects**  
**(V01.0)**

<b>Project Title:</b>	Improved Cookstove Distribution in Kenya by EKI Phase - 01
<b>Names of the activity participants:</b>	EKI Energy Services Limited
<b>Host party:</b>	Kenya
<b>Precise geographical location (Full address or GPS coordinates):</b>	Kenya Latitude – 0.0236° S Longitude – 37.9062° E
<b>A brief description of the technologies or measures to be deployed:</b>	The main purpose of the project is the distribution of fuel-efficient improved cook stoves (ICS) in Kenya. The Improved cookstove stove distributed through this project will replace the low efficient baseline cookstoves. Through this project, the distribution, and installation of high thermal efficient improved cook stoves (ICS) will be undertaken for households. The ICS will burn wood more efficiently thereby improving thermal energy transfer to pots, hence saving fuel wood and greenhouse gases. Not only will this halt the rapidly progressing deforestation but will also reduce health hazards from indoor air (smoke) pollution and women and children will have to spend less time collecting firewood.
<b>The Article 6.4 mechanism methodology to be applied (if already known):</b>	Not known
<b>The actual or planned start date of the activity:</b>	15 Jan 2023
<b>The type of the crediting period:</b>	Renewable
<b>Start date of the crediting period:</b>	15 Jan 2023
<b>The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:</b>	304,433 tCO <sub>2</sub> eq per year
