

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Viviid Solar Bundled Project in Tamil Nadu(2)
Names of the activity participants:	Viviid Emissions Reductions Universal Pvt Ltd
Host party:	India
Precise geographical location (Full address or GPS coordinates):	"As it is a bundled project, multiple locations are present. Therefore sharing the extreme coordinates. Actual will be provided during the due course of Validation. Extreme Coordinates:10.450718 N to 11.116017°N 77.338626°E to 78.060518 °E "
A brief description of the technologies or measures to be deployed:	"The project involves installation of Solar Photovoltaic (SPV) Panels by multiple owners from a proposed cumulative capacity of 29 MW in multiple locations in the state of Gujarat India. The purpose of the proposed project activity is to generate electricity using a clean and renewable source of energy.The generated power willl replace the equal amount of power which would have been generated by fossil fuel-intensive thermal power plants.More details will be provided during the due course of validation"
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	31 Mar 2021
The type of the crediting period:	Renewable
Start date of the crediting period:	31 Mar 2021
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	34,500 tCO ₂ eq per year
