

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Viviid Gro solar energy Project in Maharashtra
Names of the activity participants:	Viviid Emissions Reductions Universal Pvt Ltd
Host party:	India
Precise geographical location (Full address or GPS coordinates):	"21.176596° N, 74.570105° E"
A brief description of the technologies or measures to be deployed:	"The project involves installation of 7 MW Solar Photovoltaic (SPV) Panels in Gujrat . The purpose of the proposed project activity is to generate electricity using a clean and renewable source of energy.The generated power will replace the equal amount of power which would have been generated by fossil fuel-intensive thermal power plants. More details will be provided during the due course of validation. "
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	06 Jan 2021
The type of the crediting period:	Renewable
Start date of the crediting period:	06 Jan 2021
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	10,500 tCO ₂ eq per year
