

Article 6.4 Mechanism
Prior consideration notification form for projects
(V01.0)

Project Title:	Viviid Biomass Based Steam Generation Project in RJ
Names of the activity participants:	Viviid Emissions Reductions Universal Pvt Ltd
Host party:	India
Precise geographical location (Full address or GPS coordinates):	Proposed GeoCoordinates: 25°20'55.4"N 74°37'20.0"E
A brief description of the technologies or measures to be deployed:	The proposed Project activity is a Bundled Biomass-based Steam Production from a proposed capacity of 10 TPH and Thermic fluid heater of capacity 4 Mkal/hr located in Rajasthan. The Project utilizes Biomass to produce steam to utilize in the industrial process, and Thermic fluid heater to produce hot air for drying purposes. Hence reduces the greenhouse gas emissions by avoiding the use of fossil fuels. More details will be provided during the due course of validation.
The Article 6.4 mechanism methodology to be applied (if already known):	Not known
The actual or planned start date of the activity:	12 Jan 2022
The type of the crediting period:	Renewable
Start date of the crediting period:	12 Jan 2022
The approximate amount of GHG emission reductions or net GHG removals expected to be achieved by the project on average:	35,000 tCO ₂ eq per year
